

JBC™ 28" Traffic Cones

JBC™ Revolution Series Cones are the leader in the traffic safety industry. Revolution Series Cones are made from an innovative injection molded design that holds up in all temperatures and maintains color in difficult UV situations.

UNIQUE DESIGN

Indented handles at the top allow the cones to easily be picked up and stacked. The black bases are made entirely from recycled materials and are marked with a unique dotted pattern. Spot the dots to know it's JBC!

TRAFFIC SAFETY AND MORE

JBC™ Revolution Series Cones are perfect for use in work zones, parking areas, other traffic uses, and more. Cones are available in multiple sizes with reflective collars. All cones are MUTCD and NCHRP-350 compliant products.

DURABILITY

These injection-molded traffic cones can stand up to any weather and are great for high-wind conditions. An indented handle at the top allows for the cones to easily be picked up and stacked.

SPECIFICATION
