

JBC™ Barricades

JBC™ Barricades

JBC™ Barricades are great for vehicle and pedestrian control. Barricades are weatherproof, portable and durable. Available with engineer grade, diamond grade or high-intensity grade sheeting, JBC™ Barricades are the perfect option for alerting drivers and directing traffic on residential streets and highways as well as designating road closures.

TRAFFIC SAFETY AND MORE

JBC™ Barricades are perfect for use in work zones, pedestrian areas, other traffic uses, and more. Barricades are available in multiple sizes.

QUALITY THAT LASTS

JBC™ Barricades are made to last. Barricade legs are created with galvanized steel to prevent rust and corrosion. Barricade panels are made from a unique ABS blended material and are fluted for maximum durability. The panels are securely fashioned to the legs with plated carriage bolts, split lock washers and nuts.

CUSTOMIZATION

Order custom printed JBC™ Barricades with your logo or message. Stenciling with our solvent-resistant UV printing is available for bottom panels.
