

JBC™ Delineators

JBC™ Delineators are designed to perform in the toughest conditions. The durable tubes of these delineators feature a special LDPE formula, which makes delineators strong and flexible.

All delineators are made with two 3" stripes of 3M prismatic tape and UV stabilizers to hold color in the harshest weather and road conditions. Different sizes, base options and top options are available.

SPECIFICATION

- Top Shape: Knob, Diamond, Arch, or Open
- Height: 28" or 42"
- Base Weight: 8lb or 12lb
- Base Dimensions: 17" x 17"
- Tube Weight: 1.85lb
- Reflectivity: Dual 3" 3M Reflective Collars
- Tube Material: UV-Resistant Low-Density Polyethylene (LDPE) Fluorescent Orange Plastic
- Base Material: 100% Recycled Rubber Tires, Re-Vulcanized for Durability
